Arab creators are underserved by AI

1

Global AI tools fail with Arabic

Midjourney, DALL·E, Leonardo and others don't understand Arabic prompts — output is broken or wrong.

2

Creators juggle too many apps

One tool to generate, another to edit, a third to enhance. No unified Arabic-first workflow exists.

3

MENA's creative market is ignored

400M+ Arabic speakers, yet not a single established Arabic-native AI creative platform serves them.

“Too many tools, none that speak my language.”

OUR SOLUTION

LumenPro — one Arabic platform

True Arabic Support

Multiple AI Models

Unified Platform

Arabic-first for online sellers

Product shots that look studio-made

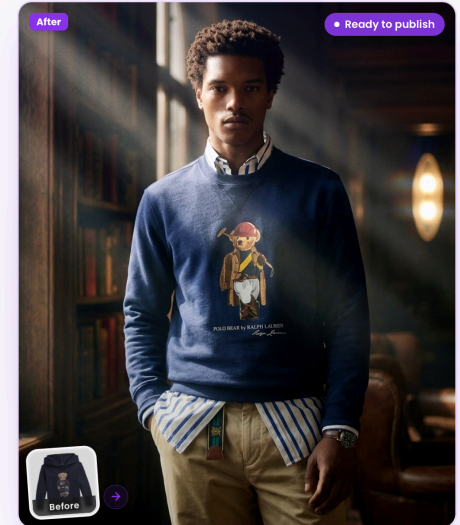

Upload your product photo, describe what you want in plain language, and get images and video ready for your store and ads — no photographer, no designer

Try free now →

12,000+ registered users

No credit card · Free credits to start

Type in plain language

"Model wearing the hoodie, keep the same brand look"

Generate · Edit · Enhance — all in Arabic, in one place. Pre-written templates for beginners; direct model access for pros.

TRACTION

Real revenue, growing every month

\$30K+

Total Revenue

in ~8 months

560+

Paying Customers

since launch

30%+

Net Margin

profitable from month one

MONTHLY REVENUE TREND

Key Insights

- Renewals now ~40% of revenue (was 0% at launch)
- Top markets: Iraq, Saudi Arabia, Kuwait, Bahrain
- Free trial (Feb 2026) lifted retention sharply

A large market with no clear leader

400M+

Arabic speakers

worldwide — the largest underserved creative market in AI

\$1B+

MENA creative software

spend on design, content & marketing tools annually

2

Arabic AI tools

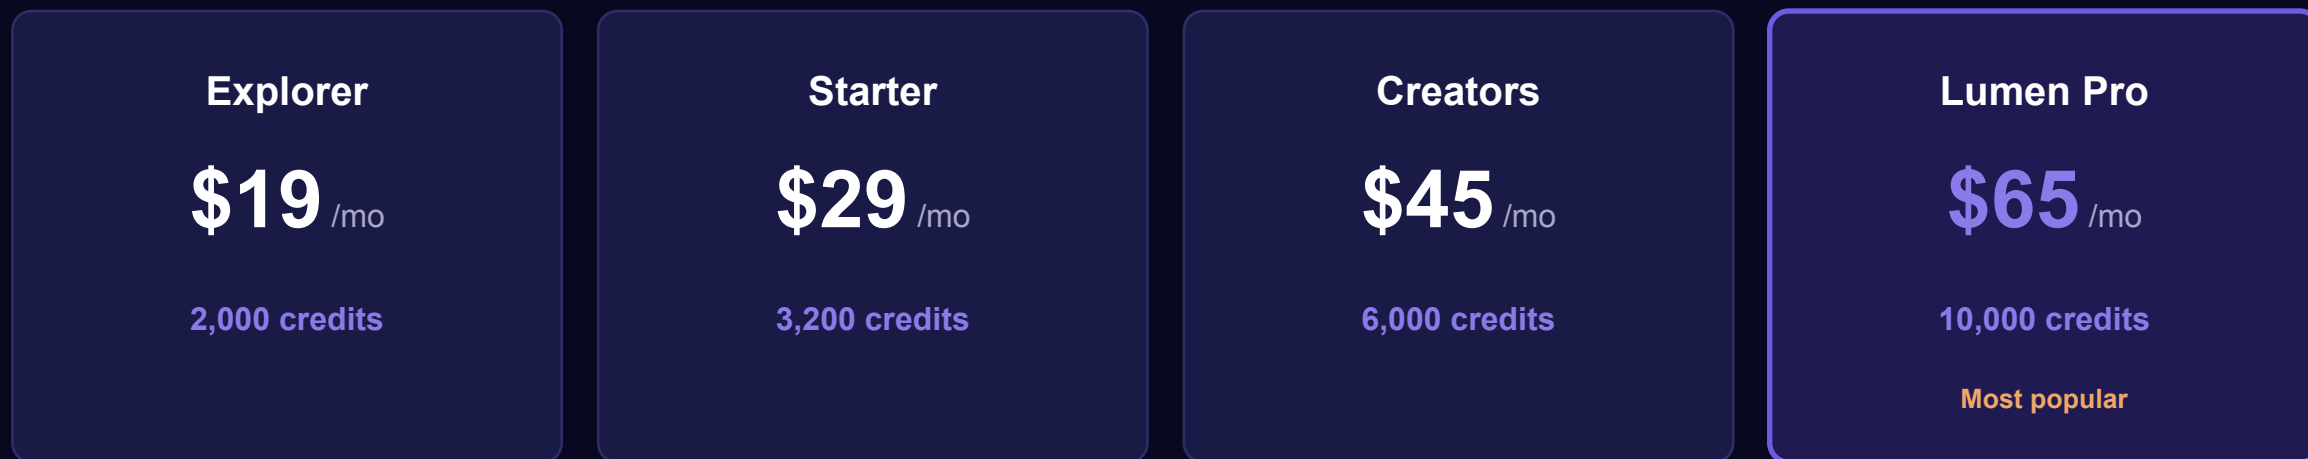

exist today — but none are all-in-one or multi-model

Why now

- AI adoption is still early — the market is forming, not settled
- Kuwait Vision 2035 & regional digital agendas back AI-native ventures
- First-mover window for an Arabic-native platform is still open

B2B subscriptions for teams & businesses

LumenPro sells credit-based subscriptions to businesses — agencies, SMEs, e-commerce stores and F&B brands — that need high-volume Arabic visual content without hiring designers.

Recurring revenue · renewals already ~40% of monthly revenue and growing as teams standardize on the platform.

TEAM

Technical depth meets design craft

LumenPro is built by a complementary two-person founding team — combining technical & business leadership with product design — purpose-built for the MENA market.
